

Pediatric

ASHI *Pediatric CPR, AED, and First Aid* is an ideal training solution for schools, child care providers, youth sports coaches and others required to learn how to respond to medical emergencies involving children.* This versatile program is based on the *2015 CPR and First Aid Guidelines, Caring for Our Children, 3rd Ed*, and other evidence-based treatment recommendations.

Intended audience

Individuals who desire or are required to be certified in pediatric first aid, CPR and AED.

Class configurations

- Max student to instructor ratio: 10 to 1
- Recommended student to equipment ratio: 3 to 1

ASHI-approved training materials

Instructor materials

- *Pediatric* media presentation (DVD, Streaming, PowerPoint® or computer/online blended class)
- *Pediatric* Instructor Guide (one per instructor; print or digital)

Student materials

- Student Book (one per participant; print or digital)

Digital resources

- Streaming video player
- Create custom playlists
- Customizable blended learning playlists
- Pre-built digital Performance Evaluations
- Track past, present and future classes through TC portal
- Mobile app, including offline mode

Recognized certification period

Up to 2 years

Successful completion (certification)

- *Written evaluation*: When not required by a regulatory agency, it is optional.
- *Performance evaluation*: All students must perform required skills competently without assistance.

Recommended time to complete

- Initial training: Approximately 6 hours
- Renewal training: Less than initial instructional time
